

TENSION SHADES Skylight Motorized FlexShade®

MOTORIZED OVERHEAD GLAZING PROTECTION

Skylight FlexShade, ABOVE: Wherry Elementary in Albuquerque, NM
Photography: Matt Oberer, Matt O Photo, Albuquerque, NM

- The Skylight Motorized FlexShade® window shade delivers motorized solar control and UV protection from overhead sunlight. Control of solar heat gain promotes a more comfortable work environment, protecting staff and furnishings.

FEATURES

- Battens included to ensure flattest surface possible.
- Install at any angle, as long as rollers are level and parallel to the floor.
- Venting space between shade and glass recommended.
- Perimeter support angles simplify installation.
- Side flanges prevent direct light leaks.
- Includes aluminum headbox (recess or surface mount), side and sill channels.
- Continuous cable provides self-adjusting equalization of tension.
- Product designed for interior use.

OPTIONS

- Hardware finish choices: clear anodized (standard), black, white, ivory, or charcoal bronze. Custom powder coat colors available.
- Select mesh fabric for light filtration or SunBloc for opacity.
- Available with Standard AC, RTS AC, 485 AC, or IntelliFlex® I/O AC Controls.

SIZES

- Available in sizes up to 6' wide x 8' high (183 cm x 244 cm), depending on fabric selection.
- Maximum unsupported width of 36" (91 cm).
- Units wider than 36" (91 cm) require vinyl-clad aircraft support cables.
