

EXTENDABLE VIDEO WALL MOUNT

The **Extendable Video Wall Mount** offers a premium solution for video wall display units by providing easy access for service or exchange. Each mount contains a spring-mounted extension mechanism to move the display out away from the wall. Save time and money by avoiding the necessity of removing the other displays in the array.

Fine adjustment capabilities with millimeter precision provide perfect display alignment and edge-to-edge mounting. Each display mount can be secured with screws (included) or with padlocks (not included) to increase public safety and reduce the risk of theft.

FOCUSED ON INNOVATIVE SOLUTIONS

CORE SOLUTION
