# **ELECTRIC** Access XL V

CEILING-RECESSED, TAB-TENSIONED

Radisson Blu Aqua Hotel, Chicago, IL, Dealer: Automated Lifestyles, Inc., Berwyn, IL., Photography: Barry Rustin, Evanston, IL

Large venues—such as ballrooms, conference centers, or university classrooms—can benefit from the larger projection screen sizes available in the Access XL V electric, ceiling-recessed, tab-tensioned projection screen. The bottom closure panel provides access to all components for easier service and maintenance. Installation of the case during the initial phase of construction eliminates job site damage, allowing for installation of the screen at a later time.

RF welded tabs eliminate stickiness and tab separation. Tabs warranted against separation for five years. Tab-tensioned screens provide a perfectly flat viewing surface with better image quality.

## **FEATURES**

- Adjustable or removable hoisting brackets included for easy lifting during installation.
- Sliding brackets on top of case allow unlimited adjustment for mounting.
- Sliding brackets inside case accommodate different size screens.
- Bottom closure panel detachable or hangs in place with "T" bracket to provide accessibility for service or maintenance.
- Quick-connect wiring allows for early installation of the case with the addition of the screen later.
- Includes a 110V, 3-position switch (standard).

#### WARRANTY
