

MOTORIZED FlexShade® Recharge

RECHARGEABLE LITHIUM ION BATTERY

FlexShade® Recharge, Private Residence

- A rechargeable, motorized window shade, the FlexShade® Recharge features quiet operation and ease of installation in difficult areas with no wiring or electrician needed. An existing Clutch-Operated FlexShade® can be upgraded to a battery powered FlexShade Recharge utilizing current hardware and shade fabric.

FEATURES

- Lower-cost entry point for motorization.
- Shades available in single or dual roller option.
- No battery wand. Batteries located inside motor.
- Plug 5V USB charger into 110V outlet.
- Green product: No disposable batteries.
- Installs like a manual shade, so no wiring or electrician needed.
- Each charge lasts over 500 cycles, several months of normal usage.
- Extremely quiet operation.
- Product designed for interior use.

OPTIONS

- Alexa or Google Home compatible using Recharge Data Hub.
- Choose single or multi-channel wireless wall switches or remotes to operate the shades.
- Recharge Data Hub and mobile app to operate or program the shades.
- Recharge Sun Sensor.
- Solar Panel for Recharge Battery Motors.
- Recharge Cable Extender 8".
- Multiple hardware options for surface or recessed mounting.
