

SPECIALTY SHADES Dual Roller FlexShade®

DUAL PURPOSES IN A SINGLE UNIT

- Combine dual purposes into a single unit with the Dual Roller FlexShade® window shade. Choose to vertically stack two shades, or a shade and projection screen. The flexible configuration creates more project and design opportunities, including utilizing natural light, minimizing heat and glare, providing privacy during the day, delivering a near complete room darkening effect, and integrating a projection screen. This versatility makes it ideal for use within commercial, healthcare, institutional, or educational applications.

FEATURES

- The following shade models have a dual roller option: Clutch-Operated FlexShade®, Clutch-Operated FlexShade® NEXD, Motorized FlexShade® (includes AC, 485 AC, RTS AC, and 50 DC), FlexShade® ST30 DC, FlexShade® Battery, and FlexShade® Recharge.
- Clutch-Operated FlexShade NEXD is available in the standard vertically stacked option or as a horizontal dual roller.
- Hardware components include: Dual Roller Endcaps, Dual Roller Fascia, and Dual Roller Pocket Headbox. Options may vary by product type. See technical documents for details.
- Product designed for interior use.
- Dual motorized units are UL listed.

OPTIONS

- Dual Roller Fascia finish choices: clear anodized (standard), black, white, ivory, or charcoal bronze. Custom powder coat colors available.
- Dual Roller Pocket Headbox finish choices: grey inside/white outside or white inside/grey outside with a white wall clip.

CHILD SAFETY NOTICE

To comply with ANSI/WCMA A100.1-2022, clutch-operated products ship with a tensioning device attached to the bead chain. Incorrect installation partially disables the product.

Motorized and battery powered versions of this product are Certified Best for Kids™ by the Window Covering Safety Council.
