

REVELATION

PROJECTOR LIFT

■ The REVELATION permanently conceals the projector—and its noise—above the ceiling at all times. You won't see or hear the projector—not before, during or after the show. You'll only see a hinged door in the ceiling, finished in white powder coat. At the heart of this system is an optical-grade first surface mirror system that lets you take your showmanship to the next level.

FEATURES

- **WEIGHT CAPACITY:** 100 lbs. (45.4 kg)
- **INCLUDES:** Single wall switch
- **REQUIRES** only 13-5/8" (35 cm) of space above the ceiling.
- **ACCOMMODATES** a wide variety of LCD/DLP projectors, including those with offset lenses.
- **WARRANTY:** One year against defects in materials and workmanship.
- **LIFT SELECTOR:** Use [this tool](#) to choose the appropriate lift.
- **US PATENTS:**
<http://www.draperinc.com/legal/patents/>

OPTIONS

- **CONTROLS:** Can be independently operated using these motorized [lift controls](#).
- **ENVIRONMENTAL AIRSPACE HOUSING:** Optional Aluminum housing isolates projector from environmental airspace above ceiling.
- **ACCESSORIES:** Optional [accessories](#) available.
- **MOTORS:** 110V or 220V
- **GLASS SHIELD:** Reduces projector noise by an additional 80%, and prevents cigarette smoke, grease or other harmful substances from reaching the projector. No projector light loss.
