

Gym Dividers

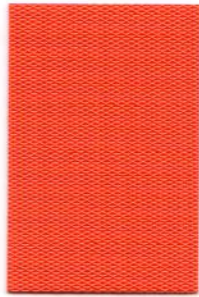

by **DRAPER**[®]

Gym Dividers by Draper are constructed of the highest quality reinforced vinyl. Select a vinyl-coated polyester mesh to facilitate air flow, a tough solid vinyl to provide a visual barrier between play areas, or a combination of mesh on top and solid on the bottom. All curtain seams run vertically (horizontally on Top Roll and Roll-Up Dividers), and are electronically welded with a 1-inch full contact weld. Additional technical data on reverse side.

Gym Dividers by Draper

Only the finest quality goods are used in Gym Dividers by Draper. All Fold-Up, Ridge-Fold and Walk-Draw curtain seams run vertically and are electronically welded with a one-inch full contact weld. Vertical seam fusion has a superior construction advantage over horizontal seams in its resistance to tearing and breakaway. Due to the rolling action of Top Roll and Roll-Up Dividers, horizontal seams are required. Vinyl coated polyester materials are flame, fade and mildew resistant, and washable.

Solid

Fabric is a durable vinyl coated polyester. Excellent for creating a visual barrier between play areas.

18 oz. Vinyl

Technical Data

General: Solid fabric is a vinyl coated polyester.

Weight: 17 oz. to 19 oz. per square yard (avg. 18 oz. per square yard)

Resistance to rot, mildew and fungus: Excellent

Ultraviolet resistance: Excellent

Fire retardant ratings: ASTM E 84-Class A Rating; NFPA 701 (Test 1); California State Fire Marshall (CSFM) Title 19

Off-Gassing/VOCs: UL GREENGUARD GOLD (see below for technical details)

22 oz. Vinyl

Technical Data

General: Solid fabric is a vinyl coated polyester.

Weight: 20 oz. to 23 oz. per square yard (avg. 22 oz. per square yard)

Resistance to rot, mildew and fungus: Excellent

Ultraviolet resistance: Excellent

Fire retardant ratings: ASTM E 84-Class A Rating; NFPA 701 (Test 2); California State Fire Marshall (CSFM) Title 19

Off-Gassing/VOCs: UL GREENGUARD GOLD (see below for technical details)

Mesh

Fabric is vinyl coated polyester woven from textile yarn in a one-over-one weave pattern. The yarn is composed of pigmented vinyl, 80%, and 1000 denier polyester, 20%. Economical way to divide floor space without creating sight limitations, and at the same time, facilitate air flow.

Technical Data

Weight: Avg. 9 oz. per square yard

Resistance to rot, mildew and fungus: Excellent

Ultraviolet resistance: Excellent

Fire retardant ratings: NFPA 701 (Test 1); California State Fire Marshall (CSFM) Title 19

Off-Gassing/VOCs: UL GREENGUARD GOLD (see below for technical details)

UL GREENGUARD GOLD Technical Data

Draper 18 oz. and 22 oz. Divider Curtain Vinyl and Divider Curtain Mesh have been submitted to IAQ (indoor air quality) evaluation in accordance with UL 2811 test method to show compliance with emissions limits on UL 2818 Section 7.1 and 7.2. Materials are tested in accordance with ANSI/BIFMA M7.1-2011 and determined to comply with ANSI/BIFMA X7.1-2011 and ANSI/BIFMA e3-2014e credit 7.6.1, 7.6.2 and 7.6.3. Material emissions of total volatile organic compounds of < 0.22 mg/m³, formaldehyde ≤ 0.0135 ppm, total aldehydes ≤ 0.043 ppm, individual volatile organic compounds ≤ 1/1000 TLV and ≤ ½ chronic REL and total phthalates ≤ 0.01 mg/m³.
