

SMS Flatscreen Mounts

SMS Flatscreen Mounts for Heavy Weight Displays

Ceiling Mounts

Install your display close to the ceiling, or suspend it into the room, with these stylish and sophisticated designs you will have the perfect balance between form and function. For displays 37" or greater and weights greater than 66 lbs.

CFH ST3000

Attaches to ceiling and floor. Adjustable ceiling plate allows up to 9 $\frac{3}{4}$ " height adjustment. Accommodates multiple displays and shelves. Display can be tilted up to 10°. Includes one H2 UNIVERSAL BRACKET. Excellent mounting solution if you are unsure of wall structure since it mounts to ceiling and floor. All of mount and flatscreen weight is distributed to the floor.

CH VST 2

Adjustable ceiling mount with extension range of 37" to 60". Display can be tilted up to 25°, rotated 360° and ceiling plate has 60° pitch adjustment range. Includes one H2 UNIVERSAL BRACKET. If additional extension capability required, see Accessories for extension options.

CH VST D2

Adjustable ceiling mount for two displays back to back with extension range of 38" to 62". Each display can be tilted up to 10°. Includes two H2 UNIVERSAL BRACKETS. If additional extension capability required, see Accessories for more information.

Floor Mounts

Whether you need to place your mount on the table or floor, or move it from room to room, Draper has the perfect freestanding mount for your needs. Instant portability, sturdy construction and ease of installation make these mounts perfect for your display needs. For displays 37" or greater and weights greater than 66 lbs.
