

FH T 1450/2000

DRAPER's FH T series mounts blend amazingly clean lines, unsurpassed durability and flexibility for a complete flatscreen display solution. These design conscious floorstands compliment the decor of any lobby, store or home theater. Solid mount construction allows positioning of one or more displays anywhere along the vertical column for maximum impact, column flexibility also allows for placement of various shelves.

FH MT 1450/2000

Sleek and functional, the FH MT series allows you to take your displays from room to room. Great for hotels or businesses that have multiple meeting rooms and prefer not to leave expensive video hardware unattended. Mount allows for multiple displays. Maximum capacity is 220 lbs. Can also add adjustable shelves, camera shelves or base shelf to hold peripheral items.

SMS Accessories for Heavy Weight Mounts

SMS Flatscreen H2 Universal Bracket with Tilt Mechanism

Used when mounting additional displays to column style mounts (WH ST 1150, WFH ST 2000, FHT 1450/2000, FH MT 1450, CFH ST3000 OR FH MT 2000). Can be used for older DRAPER plasma mounts. The SMS H2 UNIVERSAL PLASMA BRACKET attaches to almost any plasma display through 50" diagonal and under 110 lbs.

SMS Flatscreen H Universal Bracket with Keystone Adapter

Used only when mounting displays for vertical/portrait orientation. Holds displays that are 50" diagonal or smaller or weigh less than 110 lbs.

Display Specific Brackets

Used when display cannot be mounted to H/H2 UNIVERSAL BRACKETS (typically displays larger than 50" diagonal or heavier than 110 lbs.). Comes with Keystone Adapter.

SMS Flatscreen Tilt Mechanism

Required if mounting additional M UNIVERSAL BRACKETS to Heavy Weight Flatscreen Mounts

CH VST2/CH VST D2 Pipe Extension 60" - 108"
