

SMS Flatscreen Mounts for Heavy Weight Displays—Use this page if display is larger than 37" diagonally or weighs more than 66 lbs.

Draper redefines plasma display mounts with cutting edge designs to complement the most sophisticated plasma display monitors. Visit our website www.draperinc.com/go/Mounts_HeavyWeight.htm for photos, product dimensions, instructions and drawings. All Heavy Weight Mounts have black finish unless otherwise noted.

Wall Mounts

WH T—Stylish wall mount with aluminum construction. Back of display is 1 5/8" away from wall surface. Display can be tilted up to 10°. Universal bracket arms built into design. No additional bracket required or compatible. Silver finish. Display cannot be mounted vertically/portrait orientation.

WH T2 16-24—The WH T2 16-24 wall mount allows installation to both 16" and 24" (on center) studs. Back of display is only 1 3/4" away from wall surface. Display can be tilted up to 10°. Universal bracket arms built into design. No additional bracket required or compatible. Display cannot be mounted vertically in portrait orientation.

WH T2—This wall mount is designed to function with display specific brackets and displays which cannot use mounts WH T or WH T2 16-24. Bracket is not supplied with this mount. Must purchase appropriate bracket separately. H Universal and display specific brackets are compatible with this mount.

WH ST—Articulating swivel wall mount extends plasma display up to approximately 24" from wall surface. Display can be tilted up to 10°. Holds one display of up to 165 lbs. Includes one H2 Universal Bracket.

WH 3D—Articulating swivel wall mount extends display up to 28" from wall surface or collapses to within 5" of wall surface. Display can be tilted 10° and rotated up to 90° side to side, depending on display size. Includes one H2 Universal Bracket.

WH ST 400—Wall mount allows display to be tilted up to 10° or rotated up to 20° side to side. Includes one H2 Universal Bracket.

WH ST 1150—Column wall mount. Longer column length allows multiple displays or shelves to be added. Includes one H2 Universal Bracket.

WFH ST 2000—Column mount attaches to wall and floor. Display can be tilted up to 10° or rotated up to 20° side to side. Display can be raised or lowered over the length of the column. Column length allows for multiple displays and shelves. Includes one H2 Universal Bracket.

Ceiling Mounts

CFH ST3000—Attaches to ceiling and floor. Adjustable ceiling plate allows up to 9 3/4" height adjustment. Accommodates multiple displays and shelves. Display can be tilted up to 10°. Includes one H2 Universal Bracket.

CH VST 2—Adjustable ceiling mount with extension range of 37" to 60". Display can be tilted up to 25°, rotated 360° and ceiling plate has 30° pitch adjustment range. Includes one H2 Universal Bracket. If additional extension capability required, see Accessories for extension options.

CH VST D2—Adjustable ceiling mount for two displays back to back with extension range of 38" to 62". Each display can be tilted up to 10°. Includes two H2 Universal Brackets. If additional extension capability required, see Accessories for extension options.

SMS Ceiling Mount Model Name	Part Number	PRICE	Shipping Wt./lbs.	Freight Class	Cartons
CFH ST 3000	233096	\$940	81	50	3
CH VST 2	233091	435	43	50 U	3
CH VST D2	233110	635	51	50 U	3

H2 Universal Bracket—This new universal design is included with each mount (where noted). It can be used for any display that has mounting hole distances less than 19 1/2" vertically or 31" horizontally (typically displays of 50" diagonal or less). If your display is not compatible with the H2 Universal Bracket please refer to our website www.draperinc.com/go/Mounts_HeavyWeight.htm for compatibility with other brackets. **This bracket is designed for horizontal/landscape display mounting only. If vertical/portrait orientation is needed an H Unislide with Keystone Adapter will be required.**
