

Draper SunBloc Series SB9100—

Whenever true opacity is required. Perfect for rooms where audio visual presentations are made. Room-darkening fabric constructed of tough, close-woven fiberglass coated on both sides (white exterior) with durable, sun-resistant, flexible vinyl. Flame, fade and mildew resistant; washable and tear proof. 36", 45", 54", 63" and 72" roll width. 12 oz./sq. yd. Meets NFPA-701 fire retardant standards. Specify SUNBLOC SB9100 in these 8 duplex colors. Use SUNBLOC as part of a LIGHTBLOC SHADING SYSTEM when total darkness is needed.
