

SheerWeave® Infinity by Phifer—

PVC-free and 100% recyclable, SheerWeave Infinity starts with the only core yarn, synthetic or natural, that is born out of post-industrial waste by-product. Like its SheerWeave predecessors, Infinity provides the same solar heat and glare control properties that have elevated window treatments from mere decoration, to high performance tools for conserving energy, harnessing natural light and maintaining interior comfort levels. Available in nine colors and with 3% and 5% openness.
