## Specifications Please check all appropriate selections and attach room schedule with verified dimensions.

QUANTITY: $\qquad$ SIZE: $\qquad$ h. $x$ $\qquad$ _ w.
Projection screens for recessed ceiling mounting. Case back, top, and front constructed of steel. Endcaps are steel. Bottom panel forms slot for passage of viewing surface, easily removable for access. Housing allows for left- or right-hand motor location and for viewing surface to unroll from the back or front of the roller. Housing includes bottom flange for trim around edges of ceiling opening. Case may be mounted with $3 / \mathrm{s}^{\prime \prime}(9.5 \mathrm{~mm})$ threaded rod, or with $3 / 8^{" 1}(9.5 \mathrm{~mm})$ lag screws through mounting brackets. Mounting brackets slide in $18^{\prime \prime}$ ( 45.7 cm ) long channels on top of case, allowing brackets to be moved to avoid interference with conflicting building structures. Brackets must be locked in position by tightening screws. In typical installations, mounting brackets may be angled to meet installation requirements.
Roller/fabric assembly installed in case at factory. Brackets supporting roller/fabric assembly to slide in track inside top of case, allowing viewing surface to be centered in case. Roller of 5 " ( 12.7 cm ) dia. metal. Viewing surface flame and mildew resistant.

## Select Case Color:

$\square$ Black (optional)

## C ULUS

Select Viewing Surface:
$\square$ Matt White XT1000E (1.0 gain): GREENGUARD Gold certified

Other: $\qquad$

## Select Motor and Controls:

Standard Voltage Motor and Control Options:
$\square$ 110-120V AC (standard)
Please Note: This motor comes with one 110V-120V AC 3-position wall switch (silver wall plate with black rocker).

Total number of 110-120V AC switches (operate independently)
$\square$ Substitute white switch(es) for silver wall plate with black rockerOptional Key Operated Switch

Power Supply Key Switch (on-off)
3-Position Key Control
3-Position Switch with Hinged Key-Locking Coverplate

## Low-Voltage Control Options:

$\square$ Internal LVC-IV (Low-Voltage Control Module)
External LVC-IV (Low-Voltage Control Module)
Motor with Internal Low-Voltage Controller
Please Note: Select Control Options for Low-Voltage from below.
$\square 24$ Volt 3-Button Switch Number of 24 V switches:Radio Frequency Remote Control (only with 24V)
Infrared Remote Control (only with 24V)
Optional Key Operated Switch
$\square$ Power Supply Key Switch (on-off)
$\square$ 3-Position Switch with Hinged Key-Locking Coverplate

## Select Motor Location:

Left end (standard) (fabric rolls off back of roller) Right end (fabric rolls off front of roller)

## Optional Accessories:

Additional Drop $\qquad$ (beyond standard 12" 30 cm )
$\square$ Total Drop $\qquad$ (standard 12" $(30 \mathrm{~cm})+$ additional drop)
$\square$ Black (standard)
$\square$ Same color as viewing surface
(Total screen height cannot exceed 22' (6.7m);
extra drop increases length of case)

Electrically operated $110-120 \mathrm{~V}$ AC, 60 Hz . 4-wire motor mounted inside screen roller, max 2.1 Amp current draw, instantly reversible, lifetime lubricated, with internal thermal overload protector and electric brake, standard motor with preset accessible switches. Housing features internal junction box, allowing it to be installed and wired to building supply wires at an early stage of construction. Junction box has plug-in style connector, accepting the mating half of the connector from the motorized roller/fabric assembly. 3-position control switch (or switchesspecify number) to stop or reverse screen at any point. Switch(es) furnished with cover plate.
Entire unit certified by Underwriters' Laboratories for the U.S. and Canada. Plenum rated case (UL approved "Suitable for Use in Environmental Air Space"). Specifications subject to change without notice. For more information, visit ul.com/gg.
DOWNLOADABLE 3-PART SPECIFICATIONS: available at www.draperinc.com
Please note: Dimensions of rollers, operators, and hardware at manufacturer's discretion.

Case Dimensions and Methods of Installation

Standard Motor Wiring is on the AUDIENCE LEFT END of Screen Case.

- For minimum length of ceiling cutout: subtract $11 / 4^{\prime \prime}(32 \mathrm{~mm})$ from case length (measured from outer edge of flanges).
- For minimum width of cutout (front to back): see case width dimensions below.
 bracket to be adjusted laterally up to $16^{\prime \prime}(40.6 \mathrm{~cm})$ in either direction.
