## MULTI SPORT PRACTICE CAGE BASIC OPERATION INSTRUCTIONS

The Multi-Sport Practice Cage is operated from a key switch located on the wall closest to the motor. Key switch or controls should be located to be in full view of practice cage during operation. The cage cannot be operated without the key.

When operating the cage, make sure you adhere to the following procedure or you may run the risk of damage to the cage assembly:

1. After verifying that all persons in the gymnasium are a safe distance away, turn and hold key in a counter-clockwise direction to lower the cage.
2. After cage has been fully unfolded and just prior to folding the cage back up, verify the following:
  - A. Verify that no components of the cage assembly have been damaged in anyway. If any damage is evident, do not operate cage and contact manufacturer or your local representative immediately for repair.
  - B. Verify that all persons in the gymnasium are a safe distance away.
  - C. To allow greater clearance when the cage is not in use, the sides of the netting material can be manually folded on top of the net support frame. Great care should be used when unfolding the netting material to insure the net does not catch on exposed clamps or hardware on the net support frame.
3. After carefully checking and complying with the items in step 3 above, turn and hold key in a clockwise direction to raise the cage.

The following safety precautions should also be taken:

1. ONLY staff persons thoroughly trained and qualified in the operation of the cage should operate it.
2. NEVER leave the key in the switch or in an unsecured location accessible to unauthorized operators.
3. Do not attempt to climb cage netting at any time.
4. Do not interfere in any way with the operation of the cage as it is folding up or down.
5. If satisfactory performance of the cage operation cannot be obtained by following the steps above, contact the curtain manufacturer or your local representative immediately for additional information.

## MAINTENANCE SCHEDULE FOR MULTI SPORT PRACTICE CAGE

The following procedures should be performed not less than one time per year to insure continued proper operation of the multi-sport practice cage.

1. Check all set screws, nuts and bolts on the motor/winch unit to insure that none have worked loose.
2. Check the limit switch to insure that it is working properly and that the thumb-screws are tight.
3. Insure that the splices on the drive pipe are secure.
4. Visually inspect the practice cage netting support frame for any bends or separation of the splices.
5. Check for any tears in the netting material. If tears are present, repair immediately to prevent further damage.
6. Check for abnormal wear (i.e. fraying) in the hoist cables. Should severe wear be detected, discontinue use of the practice cage immediately and contact your dealer or sales representative.

## LIMITED WARRANTY DRAPER MULTI-SPORT PRACTICE CAGE

All Multi-Sport Practice Cages are warranted to the end user for a period of one (1) year from date of substantial completion and acceptance or eighteen (18) months after date of shipment whichever comes first. In the event that any practice cage component fails under normal use and conditions, that component will be replaced or repaired. Routine maintenance and adjustment excluded.

Misuse or abuse from vandalism, improper installation or improper maintenance is not covered under this warranty. Damages due to extreme weather conditions such as floods, tornadoes or other Acts of God are also expressly not covered under this warranty.

### THIS WARRANTY DOES NOT COVER:

1. Dissatisfaction due to improper installation or maintenance or dissatisfaction due to deviation from printed installation and maintenance instructions.
2. Damage in use due to tears, punctures, burns, scuffs, accidents emanating from lack of, or improper operation in conjunction with adjacent equipment or any intentional misuse of the product or vandalism.
3. Liability for consequential, incidental, special or any other damages, no matter what the cause.

DATE APPLIED: One (1) year from date of substantial completion of job and acceptance by the owner or eighteen (18) months after date of shipment, whichever comes first.
