## Stall Bar with Extended Top Rail-502026

Mount single Stall Bar sections separately or in a continuous row.

Each section is 2'10" wide and 8' high with eleven rungs of 1½" diameter solid oak. Rungs are finished with a clear lacquer and secured to the uprights to prevent turning.

Each section weighs 75 lbs.

Assembly hardware and mounting instructions included. To meet the requirements for specific wall construction, installer provides hardware for mounting wood pads to wall.

## Deluxe Adjustable Wall Chinning Bar-502015

The finest chinning bar available!

Wall mounting brackets and bar are constructed of galvanized steel.

Bar finished with black powder coat and adjusts easily in bracket at 6" increments.

Ready to mount. 32" in length.

## Deluxe Arm Strengthening Ladder-502028

This Deluxe Arm Strengthening Bar is made of 1 5/8" heavy gauge steel tube rails and 1 3/16" OD rungs.

Ladder has seven rungs spaced at approximately 8" increments for endurance training. Overall measurements are 60" tall and 22" wide.

Attractive blue powder coated finish for durability.

## Stationary Chinning Bars

These one, two or three section chinning bars feature the same quality welded construction as our Deluxe Adjustable Wall Chinning Bar, but are designed to mount directly to a wall.

40" Single Unit Chinning Bar-502016

82" Dual Unit Chinning Bar-502017

124" Three Unit Chinning Bar-502018

## Wall Mounted Horizontal Ladder-502025

Side rails are 12' long and 1½" x 4" x .083" wall rectangle tubing with capped ends. Side rails are electrostatically painted.

Twelve rungs are secured to the side rails to prevent turning.

Support frame is welded tubular frame with diagonal braces and chains for maximum rigidity.

Ladder is about 2' wide and extends about 46" from the wall.

Assembly and hardware instructions included.

## Ball Storage Cart-502030

Store basketballs, volleyball or other types of equipment in this handy and sturdy storage cart. Rugged steel construction of all welded 3/16" wire mesh with 3" openings and an attractive and durable blue powder coat finish.

Cart has a hinged cover that can be locked for secure storage and features two heavy-duty swivel casters and two large 12" diameter wheels to make the cart good for many different types of surfaces.
