

## Specifications—505502

### Steel Outdoor Volleyball System

#### Product Description

Outdoor volleyball system shall be Model No. 505502 Championship Steel Outdoor Volleyball System by Draper, Inc., Spiceland, IN.

System shall consist of one winch upright and one anchor upright and shall be supplied with a tensioning winch and strap. Posts shall be constructed of 3 1/2" OD, 8 Ga. Zinc coated steel tube with a net adjusting track that allows net height anywhere from tennis (42") to men's competition volleyball (7' 11 5/8"). Net adjustment is by a single locking knob on each movable net attachment bar. All steel parts have a gray powder coat finish.

System is provided with 39" tall net constructed of 3.5mm knotless nylon webbing and features a Kevlar top rope and polypropylene bottom rope. Top net rope is tensioned using a worm gear style winch with 2" wide nylon strap and bottom rope with ratcheting rope tensioner.
