

VOLLEYBALL Overhead Volleyball System (OVS)

SYSTEM STORES EVERYTHING AT THE CEILING: READY TO LOWER FOR IMMEDIATE USE

Worm gear with folding handle.

Overhead Volleyball System, Grand Canyon University Phoenix

Optional padded judges stand.
Adjustable protective UHMW stabilizing foot.

- The Overhead Volleyball System stores at the ceiling with the net, antennas, boundary markers, and pads attached. It attaches to the roof structure with the same high strength tube and clamps used on our backstops to ensure a rigid design. Just turn the key switch to lower your volleyball system from the ceiling, set the stabilization feet, and you are ready for competition.

FEATURES

- Each vertical mast features an adjustable spherical shaped foot that protects your gym floor, while providing stable posts and maximum net tension.
- Vertical masts also include an adjustable volleyball post that incorporates a screw-rod style height adjustment mechanism.
- Net height is adjustable to all competition heights and anywhere in between.
- Includes 4" (102 mm) OD trussed vertical mast tubes that pivot on the same 1 1/4" (32 mm) solid steel shafts welded to the top tube and secured in our 1/2" (13 mm) thick steel adjustable hanger.
- System operates with a 3/4 HP winch and features Aut-O-Loc 2 safety straps on each vertical mast.
- One post features a self-locking worm gear winch with a folding handle for player safety.
- Includes knotless nylon net and a pair of combination antenna/boundary markers.
- Upright protective pads included. Dark blue standard; other colors available.

OPTIONS

- Optional Judges stand available to make the OVS ready for competition matches.
- Other colors available for protective pads on uprights.
- Multiple court systems also available.
- Frames have black or white powder coat finish; other color options available.
