

# MPL MICRO PROJECTOR LIFT

SCISSOR STYLE PROJECTOR LIFT

■ The MPL is small and convenient and the first scissor-style lift in the industry that is UL listed. The projector's show position can be set at any point with infinite adjustability up to a 48" extension. The MPL features a compact side-folding scissor. The load is lifted by two 1" (25 mm) wide Kevlar® straps for maximum strength. A safety belt provides extra protection.

## FEATURES

- **DIMENSIONS:** MPL is 5" H x 23-1/2" W x 23-1/2" D (13 cm x 58 cm x 58 cm), shipping weight is 59 lbs. (27 kg)
- **FACTORY INSTALLED CABLES:** Draper will factory install cables for RGBHV with BNC or 15pin HD connectors, S-Video, Composite and Component Video with BNC or RCA connectors, Serial Communication for projector control with DB9 connectors, CAT 5e, CAT 6, and HDMI.
