

# ORBITER

## PROJECTOR LIFT

The ORBITER means you won't see the projector until it orbits into place. The ingenious design allows the Orbiter to fit in small ceiling cavities. It is the only lift that can be installed in an angled ceiling, or a wall, making it uniquely versatile. The lift conceals the projector and quickly rotates it into the "show" position at the touch of a switch or wireless transmitter. Orbiter is available in two models (Orbiter Model A and Orbiter Model B) to accommodate a range of projector sizes.

### FEATURES

- **DIMENSIONS ORBITER MODEL A:** 23" x 25-9/16" (58 cm x 65 cm), shipping weight is 54 lbs. (24.5 kg)
- **DIMENSIONS ORBITER MODEL B:** 27" x 29-1/2" (69 cm x 75 cm), shipping weight is 63 lbs. (28.6 KG)
- **UNIVERSAL BRACKET:** for easy attachment of a variety of projector models.
- **VERSATILE:** Can also be used for video conferencing cameras and speakers.
- **LIFT SELECTOR:** Use [this tool](#) to choose the appropriate lift.
