

MANUAL ACCESS M

CEILING- OR WALL-MOUNTED, FREE-HANGING

AUTORETURN AVAILABLE

The ceiling-recessed Access M manually-operated spring roller projection screen is ideal for boardrooms, classrooms or mid-sized training rooms. Free-hanging, fiberglass-backed projection screens maintain flatness thanks to the weight of the screen and bottom dowel. The bottom closure panel provides access to all components for easier service and maintenance. Installation of the case during the initial phase of construction eliminates job site damage, allowing for installation of the screen at a later time.

Spring-roller operated screens for simplicity of operation and no wiring set-up or cost. Free-hanging, fiberglass-backed projection screens maintain flatness thanks to the weight of the screen and bottom dowel.

FEATURES

- NTSC, HDTV AND 16:10 format have image area framed with black on all four sides. Black side borders are available on request for AV format screens.
- Spring-roller operated front projection screen provides a quiet, smooth operation.
- Adjustable or removable hoisting brackets included for easy lifting during installation.
- Sliding brackets inside case accommodate different size screens.
- Bottom closure panel can hang in place when open or is detachable.
- Sizes above 70" (178 cm) in height include pull cord.
- White case standard, black available.

OPTIONS

- AutoReturn provides a smoother, quieter retraction for the wall- or ceiling-mounted Access M with AR spring-roller projection screen. A simple pull automatically retracts the projection screen. It slows the return as the screen approaches its upper limit. This reduces friction and eliminates any banging when the screen enters the case preventing potential damage. Intermediate stop positions allow you to lower, raise completely, or at any point in between.
- Optional, removable aluminum operating pole available in lengths of 4' or 6' (122 cm or 183 cm).
- **Viewing Surfaces:** OptiView™ (self-supporting) family.

SUPPORTING DOCUMENTS

All instructions, technical drawings and other supporting documents are located at: draperinc.com/documents.aspx

SIZES
