

PORTABLE FOLDING CINEFOLD

COLOR-CODED, POSITIVE LOCK SYSTEM FOR QUICK SET-UP

■ The economical, versatile Cinefold portable projection screen requires no tools for set-up, making it ideal for trainers, presenters, or anyone on the road. Lightweight and easily transported with a color-coded frame that sets-up in minutes complete with tempered steel hinges that lock positively into place. The viewing surface snaps onto the perimeter frame providing a flat screen for better image quality. Cinefold's rugged components withstand the rigors of repeated set-ups and tear-downs in demanding applications.

Portable folding screens are engineered for easy assembly and to withstand the rigors of long term use. Screens remain taut and flat when attached.

Includes heavy-duty, molded polyethylene wheeled carrying case.

DRESS KIT AVAILABLE

FEATURES

- Borders are electronically welded using PVC material that provides straighter, cleaner edges.
- Color-coded frame sections finished in silver with color-coded instructions to ensure fast and easy assembly.
- When assembled, bottom of frame is 44" (112 cm) above the floor and adjusts up or down in 6" (15 cm) increments.
- Rear surfaces have rounded corners to hide frame support braces.
- Includes heavy-duty, molded polyethylene wheeled carrying case.
- **WARRANTY:** One year against defects in materials and workmanship.

OPTIONS

- Available with screen connection clamps and strips for multi-screen setup.
- Multi-image available.
- Heavy-duty legs and anti-sway stabilizers available.
- **Viewing Surfaces:** OptiFlex™ (tensioned) and CineFlex™ (rear projection) families.
- Available with interchangeable front and rear projection surfaces.
- **Dress kit available** with cotton (standard) or optional Inherently Flame Retardant (IFR) velour.
