

PORTABLE SCREEN Luma 2 R

FLOOR OR TRIPOD MODELS FEATURING QUICK, EASY SET-UP, DURABILITY

FLOOR STAND SOLD SEPARATELY

- Wherever a large, heavy-duty, portable spring-roller projection screen is required, the Luma 2 R is a practical yet attractive choice. Simple in design, this portable screen is inverted and cradled within a floor stand. The floor stand is required for the screen to operate correctly and is sold separately (see part number below). It supports the screen at floor level, telescoping the top of the viewing surface upward. The rugged construction of the Luma 2 R will provide years of dependable service, making it the perfect choice for hotels and meeting rooms.

Designed to withstand the rigors of travel and repeated use.

FEATURES

- NTSC, HDTV, and 16:10 formats have image area framed with black on all four sides.
- Includes ¾" (19 mm) black borders and 30" (76 cm) black "rise" to clear a standard tabletop.
- **Floor stand required** for proper operation. Sold separately: Part No. 212001.
- Floor stand telescopes to a maximum extension of 12' (366 cm). No component is longer than 6' (183 cm) and assembles easily without tools.
- Scratch-resistant steel pentagonal case finished in black with matching endcaps or covered with black carpet.
- **WARRANTY:** One year against defects in materials and workmanship.

OPTIONS

- Black side borders are available upon request for AV.
- **Viewing Surfaces:** OptiView™ Matt White XT1000 E.
