

Cleaning Instructions

MiroClear Mirror Cleaner by Draper

Caution

- ① Read instructions through completely before proceeding.
- ② Follow instructions carefully.
- ③ Do not get in eyes. Avoid inhalation of spray mist. If product gets in eyes, wash with plenty of water for 15 minutes. If irritation persists call your physician or the Poison Control Center (1-800-808-4691).
KEEP OUT OF REACH OF CHILDREN.
- ④ DISPOSAL AND/OR SPILL INFORMATION: Dispose of this product according to all Federal, State and local regulations. Never dispose of any chemical product in storm sewers or storm drains. If this product is spilled or cannot be used, creating the need for disposal, absorb product on an inert absorbent material and deposit in a clean, sealable container for disposal.
- ⑤ Do not allow MiroClear to freeze.
- ⑥ Do not mix MiroClear with any chemical product.

Kit Includes:

- 1 – 8 oz. Bottle of First Surface Mirror Cleaning Fluid
- 1 – Pair of lint free cleaning gloves
- 1 – Micro fiber cleaning cloth
- 1 – Mirror cleaning instructions

Cleaning Instructions

For best results, avoid spraying the cleaning fluid over the entire mirror surface. Work to clean your mirror in small sections. Do NOT clean the mirror just to clean it. WAIT until there is a need—when it begins affecting image quality.

- ① Spray liquid cleaning solution directly onto the glass surface.
- ② Using the special micro fiber cloth (included), gently wipe with a circular motion until dry and streak-free.

Harsh solvents should be avoided; Isopropyl alcohol can be used if the mirror cleaning fluid is unable to remove the contamination.

Please Note: A slight hazy residue is normal when using isopropyl alcohol. Light buffing with the special micro fiber cloth may be necessary to remove this residue.

Please Note

The unique Microfiber cloth included in this kit reduces the chances of causing abrasions in the mirror coating during cleaning. It absorbs liquid and impurities, making cleaning a breeze.

This kit also includes a pair of lint free mirror handling gloves. Wearing these gloves will protect the delicate surface of your mirror from skin oil and help prevent additional fingerprints during the cleaning process.
