

ELECTRIC Access XL E

FREE-HANGING, CEILING- RECESSED

■ Larger venues—such as ballrooms, conference centers, or university classrooms—benefit from the larger projection screen sizes available in the ceiling-recessed Access XL E electric projection screen. The bottom closure panel provides access to all components for easier service and maintenance. Installation of the case during the initial phase of construction eliminates job site damage, allowing for installation of the screen at a later time.

THIS SCREEN IS FREE-HANGING
Free-hanging, fiberglass-backed projection screen maintains flatness thanks to the weight of the screen and bottom dowel.

FEATURES

- Black drop standard, depending on screen size. Extra drop above image area available upon request.
- Adjustable or removable hoisting brackets included for easy lifting during installation.
- Sliding brackets on top of the case allow for adjustments for mounting.
- Sliding brackets inside case accommodate different size screens.
- Includes a 110V, 3-position switch (standard).
- White case standard, black available upon request.
- WARRANTY: One year against defects in materials and workmanship.

OPTIONS

- OptiView™ Matt White XT1000E.
- Quiet, low voltage motors and 220V options are available.

SUPPORTING DOCUMENTS

All instructions, technical drawings and other supporting documents are located at: draperinc.com/Documents.aspx
