

# FIXED SCREEN SHADOWBOX CLARION

SLEEK, WALL-MOUNTED, SHARP IMAGES

Lecture hall at University of Maryland, College Park, MD

Fixed frame projection screens are engineered for easy assembly and to provide crisp, clear images every time.

- ShadowBox Clarion features a sleek aluminum frame with Vel-Tex overlay, multiple viewing surfaces, enhanced image quality, and simplified assembly.

## FEATURES

- Premium aluminum frame finished in black powder coat with a standard Vel-Tex finish (black, velvety textile covering that cuts reflection and conceals all trace of joints in the frame) to reduce light reflections from projection overscan.
- Designed for wall mounting; mounting fasteners not included.
- Frame includes a mounting flange that mates with wall brackets.
- Viewing surface snaps securely to the back of the 1½" extruded aluminum frame.
- Mitered corners conceal joints for a clean, finished appearance.

## OPTIONS

- Custom curved designs available; contact Draper for details.
- Viewing Surfaces:** TecVision®, OptiFlex™ (tensioned), Cineflex™ (rear projection) and ClearSound™ (acoustically transparent) families.

## SIZES

**Maximum image width** up to 16' (488 cm) wide. Custom sizes available.
