

PORTABLE FOLDING TRUSS-STYLE CINEFOLD DRESS KIT

ENHANCED VISUAL PRESENTATION DRESS KIT

- Create a memorable, cinema-like appearance. By framing the viewing surface, the velour drapes draw the audience's focus toward the presentation on the screen. Dress kits are especially useful for rear screen presentations. In addition to framing your presentation, the velour curtains hide projection equipment, shield projector light from the audience, and help eliminate ambient light in the projection area.

FEATURES

- COMPLETE DRESS KIT: includes skirt, valance, valance bars, 2 drapes, 2 drapery bars, and wheeled heavy-duty case.
- Screen size and aspect ratio may be adjusted by raising the optional adjustable skirt bar in 6" (152 mm) increments to conceal the lower portion of the viewing surface.
- FABRICS: Available in rich black cotton velour (standard). Custom colors and multi-image sizes available by quotation.
- All dress kit fabrics meet fire safety standards.
- ATTACHMENTS: Hardware attaches without tools to the fittings found on all Truss-Style Cinefold frames.
- Heavy-duty legs, extra heavy-duty legs, and anti-sway stabilizers are recommended for extra stability.

Flame Retardancy Standards

Draper's Inherently Flame Retardant Velour is manufactured and certified to meet these flame retardancy standards: NFPA 701, MVS-302, BIFMA-F-1-1978, SC-191-53 Class 1 California, and UFAC Class 1.

OPTIONAL

- Blue 20 oz. velour available. Other colors, custom and multi-image sizes by quotation.
- Also available with IFR (Inherently Flame Retardant) Velour. IFR Velour never needs retreating. It is flame retardant for the life of the fabric. IFR is more resistant to wrinkling than standard Velour, yet is 15% lighter weight for easier installation and transportation.
