

Access XL E

Extra large, ceiling-recessed electric screen

SUBMITTAL TECHNICAL INFO

Specifications **Please check all appropriate selections and attach room schedule with verified dimensions.**

QUANTITY: _____ SIZE: _____ h. x _____ w.

HOUSING: Case back, top, and front constructed of steel. Endcaps are steel. Bottom panel forms slot for passage of surface, easily removable for access. If mounted in ceiling, housing includes bottom flange for trim around edges of ceiling opening.

ROLLER/FABRIC ASSEMBLY: Installed in case at factory. Brackets supporting roller/fabric assembly to slide in track inside top of case, allowing surface to be centered in case. Roller of 5" (12.7cm) dia. metal.

VIEWING SURFACE: with black masking borders. Each side of surface has a tab-guide cable system for even lateral tension and flat surface. Bottom of surface supported and masked by black extruded aluminum dowel weighted to apply proper vertical tension. Top of viewing surface masked by 12" (30cm) black drop. Viewing surface flame and mildew resistant. Matt White XT1000V and Grey XH600V viewing surfaces are certified to GREENGUARD standards for low chemical emissions into indoor air during product usage. U.S. and Canada. For more information, visit ul.com/gg.

MOTOR: 110-120V AC, 60 Hz. 4-wire motor mounted inside roller, max 2.3 Amp current draw, instantly reversible, lifetime lubricated, with internal thermal overload protector and electric brake, standard motor with preset accessible switches. Housing features internal junction box, allowing it to be installed and wired to building supply wires at an early stage of construction. Junction box has plug-in style connector, accepting the mating half of the connector from the motorized roller/fabric assembly.

CONTROLS: 3-position control switch (or switches—specify number) to stop or reverse surface at any point. Switch(es) furnished with cover plate.

MOUNTING METHODS: Case may be mounted to ceiling with 3/8" (9.5mm) threaded rod, or to wall with appropriate fasteners for the given wall construction.

MOUNTING BRACKETS: Slide in 18" (45.7cm) long channels on top of case, allowing brackets to be moved to avoid interference with conflicting building structures. Brackets must be locked in position by tightening screws. In typical ceiling installations, mounting brackets may be angled to meet installation requirements.

PLENUM RATED CASE (UL APPROVED "SUITABLE FOR USE IN ENVIRONMENTAL AIR SPACE").

SPECIFICATIONS SUBJECT TO CHANGE WITHOUT NOTICE.

DOWNLOADABLE 3-PART SPECIFICATIONS: available at www.draperinc.com

Please note: Dimensions of rollers, operators, and hardware at manufacturer's discretion.

Select Case Color:

- White (standard)

Select Viewing Surface:

- Matt White XT1000E (1.0 gain): GREENGUARD Gold certified
- Other: _____

Select Motor and Controls:

Standard Voltage Motor and Control Options:

- 110-120V AC (standard)

This motor comes with one 110V-120V AC 3-position wall switch (silver wall plate with black rocker),

_____ Total number of 110-120V AC switches (operate independently)

- Substitute white switch(es) for silver wall plate with black rocker
- Optional Key Operated Switch
 - Power Supply Key Switch (on-off)
 - 3-Position Key Control
 - 3-Position Switch with Hinged Key-Locking Coverplate

Low-Voltage Control Options:

- Internal LVC-IV (Low-Voltage Control Module)
- External LVC-IV (Low-Voltage Control Module)
- Motor with Internal Low-Voltage Controller

Please Note: Select Control Options for Low-Voltage from below.

- 24 Volt 3-Button Switch
Number of 24V switches: _____
- Radio Frequency Remote Control (only with 24V)
- Infrared Remote Control (only with 24V)
- Optional Key Operated Switch
 - Power Supply Key Switch (on-off)
 - 3-Position Switch with Hinged Key-Locking Coverplate

Select Motor Location:

- Left end (standard) (fabric rolls off back of roller)
- Right end (fabric rolls off front of roller)

Optional Accessories:

- Additional Drop _____ (beyond standard 12" (30cm))
- Total Drop _____ (standard 12" (30cm) + additional drop)
 - Black (standard)
 - Same color as viewing surface
(Total screen height cannot exceed 22' (6.7m); extra drop increases length of case)

Ceiling Mounting Bracket Dimensions

Wall Mounting Bracket Dimensions (Sold Separately)

Case Dimensions and Methods of Installation

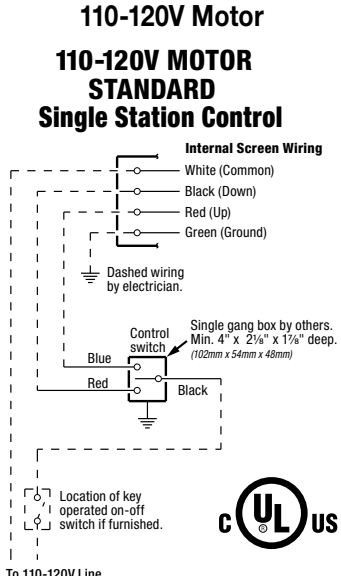

- For minimum length of ceiling cutout: subtract 1 1/4" (32mm) from case length (measured from outer edge of flanges).
- For minimum width of cutout (front to back): see case width dimensions below.

- **Leveling bracket is used to level the case and should NOT be used to support the weight of the unit.
- The leveling bracket is screwed to the side of the case. Hardware used for leveling provided by others.
- There are several knock-outs in the screen housing to allow the leveling bracket to be adjusted laterally up to 16" (40.6cm) in either direction.

Standard Motor Wiring is on the AUDIENCE LEFT END of Screen Case.

Wiring Diagrams

Please Note: For external low-voltage (LVC-IV), serial (LVC-IV), and network (LVC-IV) wiring diagrams, please consult instructions for those modules.
