

FLEXSTYLE™

Motorized FlexStyle 485 AC

SMART SHADE WITH INTELLIGENT TECHNOLOGY 3-WIRE LINE VOLTAGE MOTOR

Choose from nine designer finishes or ready-to-paint primer grey.

■ A luxury open roll shade, the **Motorized FlexStyle 485 AC** combines high-tech convenience with a wide range of control options. The encoded line voltage motor provides a broad range of applications for this smart shade. It can synchronize automation between just a few shades for the home user to entire floors in large commercial buildings. This is the perfect choice for both high-end residential users and large-scale commercial systems.

FEATURES

- Shade available in single roller option and can be coupled to reduce the number of motors required.
- AC motors use line voltage. Motors can be parallel wired (daisy-chained).
- Bus distribution allows various devices and controls on the bus line to efficiently communicate.
- Provide centralized control station for advanced operation and facility management by utilizing building controllers.
- Secure moisture resistant connection to line voltage using M12 Connector or Plug & Play option using three-prong NEMA plug.
- Cutting-edge technology allows for multiple user interfaces including Zigbee, radio frequency, and more.
- Sensors are available for reading real-time light and weather conditions.
- Product designed for interior use.

OPTIONS

- Stylish cast aluminum brackets available in 9 designer colors and plated finishes. Brushed Nickel, Brushed Gold, Antique Bronze, and Chrome come with a plated coating. Taupe, Grey, Black, White, and Warm White are painted. Or choose Primer Grey for hardware that is ready for you to paint.
- Choose from hundreds of fabrics in a variety of colors, textures, and opacities to customize any room décor.
- Shades can be customized with graphics, patterns, or custom color matches, including color matching libraries such as Sherwin-Williams and Pantone.

SIZES

- Accommodates a 2 ¾" (70 mm) bundle diameter and up to 8' (244 cm) width.
