

BATTERY

FlexShade® Battery Zigbee

SMART SHADING WITHOUT WIRING

■ In areas where hardwiring is not an option, **FlexShade Battery Zigbee** offers motorized shades that support two-way intelligent communication. The wireless mesh network extends the signal throughout the installation for easy integration and setup.

Zigbee 3.0 increases user choice and flexibility, while ensuring products and services will all work together. The lithium-ion battery motor eliminates the need for an external battery wand, although it is available as an option.

FEATURES

- Available in sizes 18" to 96" (45 cm to 244 cm) wide, depending on fabric selection.
- TaHoma Gateway necessary for any Zigbee installation. Need smart plug to create mesh network.
- Rechargeable Li-ion battery motor or re-loadable battery wand available as an option.
- Self-healing and scalable abilities provide for networks with hundreds of devices.
- Product designed for interior use.

OPTIONS

- Mounting brackets (standard). Optional fascia with endcaps, or headbox with closure.
- Hardware finish choices: clear anodized (standard), black, white, ivory, or charcoal bronze. Custom powder coat colors available.
- Choose from hundreds of fabrics in a wide variety of colors, textures, and opacities to customize any room décor.
