

MOTORIZED FlexShade® I/O AC

COMPLETE CONTROL SOLUTION FOR MOTORIZED ROLLER SHADES

Motorized FlexShade® at Champaign Public Library, Champaign, IL. Architect: Ross Barney Architects, Chicago, IL
Dealer: Real Designs, Champaign, IL. Photography by Barry Rustin, Evanston, IL

- Offers a 3-wire intelligent motor for easy network management with a multitude of control options and fabric choices. Draper® IntelliFlex® I/O system provides a complete control solution for motorized roller shades. The modular design eliminates the complexity which makes adding components as needed easy and trouble-free. Shades can be coupled together to reduce the number of motors required. This intuitive, intelligent system provides the scalability and integration flexibility to fit the size and complexity of small to large projects.

FEATURES

- Secure moisture resistant connection to line voltage using M12 connector.
- Motors can be parallel wired (daisy chained).
- Select right- or left-hand operation during programming.
- Thermal overload protector and electric brake.
- Recess mount hardware includes pocket headbox or Pocket D headbox with tile lip. Wall clip and closure available with or without a tile lip for existing pocket.
- Aluminum slat, min. 1/8" x 1" (3 mm x 25 mm) encased in heat sealed hem.
- Dual roller hardware components include: Dual Roller Endcaps, Dual Roller Fascia, and Dual Roller Pocket Headbox. Options may vary by product. See technical documents for details.
- Plenum rated system.
- Product designed for interior use.
- UL listed. Dual motorized units are UL listed.

OPTIONS

- Shades available in single or dual roller option.
- Multiple hardware options for surface mounting, including brackets (standard), fascia with endcaps, or headbox with closure. draperinc.com/windowshades/hardwareoptions.aspx
- Hardware finish choices: clear anodized (standard), black, white, ivory, or charcoal bronze. Custom powder coat colors available.
- Dual Roller Fascia finish choices: clear anodized (standard), black, white, ivory, or charcoal bronze. Custom powder coat colors available.
- Dual Roller Pocket Headbox finish choices: gray inside/white outside or white inside/gray outside with a white wall clip.
- Compatible with U, H Channels and L Angle for light-gap reduction.

SIZES

- Available in sizes from 34 3/8" to 168" (87 cm to 427 cm) wide, depending on fabric selection.
