

SPECIALTY FABRIC BOTTOM-UP FLEXSHADE®

MOTORIZED OR MANUAL

Bottom-up FlexShades®, Texas A&M University, Central Texas, Killeen, TX., Dealer: Tri-Tex Enterprises, Inc., Dallas, TX., Photography: © Scott Williams, Scott Williams Photography, Dallas, TX.

- The Bottom-Up FlexShade® window shade rises from a roller at the bottom of the window sill utilizing natural daylighting to its fullest extent. Harvesting daylight by blocking the sun's rays at the bottom of the window, allows sunlight to pass comfortably above people and objects adjacent to the window. It protects work surfaces near windows from harsh glare and excess heat while also providing privacy. Creating a more comfortable work or living environment makes the Bottom-Up FlexShade® ideal for home and office spaces.
