

SPECIALTY SHADES LightBloc Motorized FlexShade®

UNIQUE FABRIC RETENTION SYSTEM

Product: Motorized LightBloc FlexShade, Location: Ursuline Arts Center, Louisville, KY
Dealer: Kentucky Window Coverings, Russ Ensich contact
Photographer: Kenneth Hayden, Louisville, KY

- The LightBloc Motorized FlexShade® window shade's unique Fabric Retention System keeps the shade fabric in the side channels. This prevents any light gap and provides near complete blackout. Ideal for audiovisual presentations or room darkening applications in laboratories, schools, hospitals, or atriums.

FEATURES

- Precision engineered and custom built for each opening to eliminate light gap.
- Fabric Retention System only available with the SB9000 and SB9100 fabric.
- Includes aluminum headbox (recess or surface mount), side and sill channels.
- Jamb mount is standard.
- Product designed for interior use.

OPTIONS

- Hardware finish choices: clear anodized (standard), black, white, ivory, or bronze.

MOTOR CONTROL OPTIONS

- Available with Standard AC, RTS AC, 485 AC, or IntelliFlex® I/O AC Controls.
