

TENSION SHADES FlexShade® Tension ZIP

OUTDOOR TENSIONED SHADING SYSTEM FOR ANGLED OR HORIZONTAL STRUCTURES

Private Residence, Austin, TX

- Put our ZIP technology to work at any angle and create the perfect outdoor living space with the FlexShade® Tension ZIP shading system. The ZIP feature captures the fabric's edge, resulting in a more secure fabric retention system and improved light control. The unit can be installed at any angle from horizontal to vertical thanks to tension cords in the side channels.

FEATURES

- Control sun glare on existing pergolas, patio rooftops, and other angled windows to make your outdoor space your favorite place to be.
- Includes standard brackets for attachment to structure.
- Side channels install on mounting brackets.
- Spreader bar may be needed depending on size of system.
- Price includes standard RTS motor.
- Product designed for outdoor applications.
- UL Listed.

OPTIONS

- Hardware finish is textured powder coat available in black, ivory, bronze, white, sand, and slate. Custom powder coat colors available.

FABRIC OPTIONS

draperinc.com/windowshades/fabricoptions.aspx

- Not available with blackout fabric.

NOTE: FlexShade® Tension ZIP is not a weather barrier; it is an outdoor solar control product only. Product should not be extended during a precipitation event or windy weather.
