<b>Warranty</b>	1 year	Not published
<b>VOC Emissions</b>	GreenGuard Children and Schools Certified	GreenGuard Children and Schools Certified

\*\* In the mesh portion of the curtain, Draper grommets are set in welded vertical strips of solid vinyl, whereas the Porter no. 665 curtain, the grommets are directly set in mesh.

**IMPORTANT:** All Draper Fold-Up gym divider curtain seams run vertically and are electronically welded with a 1" full contact weld. Vertical seams are inherently stronger in a gym divider curtain than horizontal seams because the weight of the curtain pulls with the weld, rather than against it.
