**USES:**
Up, Down and Stop control of a Lift Low Voltage Control via wall switch.

**COMPATIBILITY:**
The Lift LV Switch can be used with the Lift Low Voltage Control.
Other controls may be connected to the Lift Low Voltage Control simultaneously:
a. Lift RF Kit radio frequency remote control package.
b. Lift IR Kit infrared remote control package.
c. Multiple Lift LV Switches may be used to control one Lift Low Voltage Control.
   Auxiliary control systems employing momentary “dry” contacts.
   SP-KSM 3-position momentary key switch (beware: Stop won’t work).

**CONTACTS:**
Latching contacts are part of the Lift Low Voltage Control.

**RATING:**
10V 25mA

**DESCRIPTION:**
The Lift LV Switch is a 3-button (Up, Stop, Down) wall switch which controls a Lift Low Voltage Control. The buttons are oval. The 2¾” x 4½” cover plate is plastic, and finished white. It fits a single-gang box. There are no wire leads: there are screw terminals on the back for Down, Common, and Up.

**PART NUMBER:**
121225
