The Access Case has been re-engineered to enable even larger sizes, up to a 16’ wide image area, while the case is less than 7” (18 cm) tall. It includes a redesigned bottom hinge for ease of access and installation. It also includes removable hoisting brackets to assist in easy lifting during installation.

**FEATURES**
- A Draper innovation, the essence of the Access concept is a ceiling recessed headbox designed to be installed during construction of the facility (excluding XL models).
- You can install the case during the “dirty” phase of the construction process and keep the screen safe until you install the projector.
- The screen (motor-in-roller and attached viewing surface) is installed with latching brackets.
- Redesigned bottom closure panel with new hinge system allows the closure panel to hang in place when opened, or it can be easily removed.
- Adjustable or removable hoisting brackets are now included to allow for easy lifting during installation.
- Warranty: One year against defects in materials and workmanship.

**SIZES**
- **Case end dimensions:**
  6 13/16” H x 6 1/2” D (17 cm x 16.5 cm)

  **Tab-tensioned screens**
  - **Case dimensions** 8 1/4” wide x 7 3/8” high (21 cm x 19 cm) includes trim flange.
  - **Maximum image width** up to 16’ (488 cm) wide, depending on surface selection.

  **Free-hanging screens**
  - **Case dimensions** 8 1/4” wide x 7 3/8” high (21 cm x 19 cm) includes trim flange and mounting brackets. Extra drop may increase case size.
  - **Maximum image width** up to 16’ (488 cm) wide, depending on surface selection.
