Sharper image quality makes the fixed frame Onyx projection screen ideal for control centers, boardrooms, training centers, home theaters, or any application that requires better image quality. Housed in a larger “picture frame” style, the Onyx offers a beautifully framed image for any home or commercial decor. There are no snaps! Unique fabric retention system enables uniform tension adjustment to the entire surface area, without tools, to provide a truly flat viewing surface in seconds. The result is excellent image quality and quick and easy assembly.

**FEATURES**
- Fixed frame screen designed to be wall-mounted or flown. Mounting fasteners not included.
- Extruded aluminum frame finished in black and forms 4” (10 cm) border on all four sides.
- Frame equipped with mounting flange that matches wall brackets.
- Viewing surface to have ⅜” (19 mm) hem pocket on all four sides to accept screen insertion tubing.

**OPTIONS**
- Onyx is available for custom curved applications. Please contact Draper for more information.
- Vel-Tex finish optional. Vel-Tex is a black, velvety textile covering that cuts reflection and conceals all trace of joints in the frame.
- Viewing Surfaces: TecVision®, OptiFlex™ (tensioned), CineFlex™ and ClearSound™ (acoustically transparent) families.
