Before you start:
- Leg sections should be arranged so that:
  ➤ Vertical guide pins point up.
  ➤ Horizontal guide pins point toward T-section.

Red dots indicate recommended approximate points of attachment for leg clamps. Use the following rules for clamp placement:

Clamp #1: Attach within the top 6” of the leg.
Clamp #2: Attach as close to the bottom of the screen frame as possible (normally attaches to the corner section).
Clamp #3, #4: Space the clamps equally between clamp #1 and #2.

Part Numbers
383783—Silver
383787—Black

It is recommended that the bottom of the screen frame be positioned approximately 40” above the floor.

Caution: Beware of pinch points.
