Assembly Instructions
Ultimate Folding Screen Portable Projection Screen by Draper

1. Set up the folding screen frame.
2. Attach the screen fabric to the frame.
3. Ensure all hinges and joints are locked.
4. Raise the screen to standing position.
5. Place on a level surface.
7. Caution: Make sure screen is placed on level surface.

*Please Note: For easier surface attachment, start in one corner, then work your way around the frame.

**Caution: Beware of pinch points.

The ideal temperature range for assembling folding screens to prevent damaging the surface is 68°-78° F (20°-26° C). Assembling below recommended temperatures may damage surface and void warranty.

Always fold with snaps face-to-face. Do not permit screen fabric to contact border material or snaps when folded. Store in pouch provided.

Warning: This product is intended for indoor use only. Failure to follow warning may result in product damage or personal injury due to unforeseen acts of nature.
