SP-KSM—3-Position Key Switch (Momentary) By Draper

USES:
The SP-KSM replaces the standard 3-position key switch (KS-3) where a momentary (spring-loaded) action is required. It combines the directional functions (Up and Down) with the security of a key switch. It can be used as a single- or multiple-station control.

COMPATIBILITY*:
SP-KSM can be used in multiples, for either high- or low-voltage systems.
LVC-IV (low voltage module) can be triggered by SP-KSM (stop doesn't work).
LVC-S (low voltage switch) can be used in conjunction with SP-KSM.
ILT Motor with Built-in Low Voltage Controller (stop doesn't work).
KS-1 Power Supply Key Switch.

CONTACTS:

RATING:
600 Volts, UL recognized, CSA recognized.

DESCRIPTION:
3-position key operator, momentary action.
Cover plate is stainless steel.
Four 6" wire leads: black, black, red and blue (2 commons, down and up).
2¾" x 4½" cover plate fits a single-gang box.

PART NUMBER:
121022.
