MOTORIZED FlexShade® 50DC
A LOW-VOLTAGE MOTORIZED SOLUTION FOR LARGER WIDTHS

FEATURES
- Quiet 24V motor.
- Use low-voltage accepted practices for wiring.
- Available in standard radio frequency or RS485 platform technologies.
- Recess mount hardware includes pocket headbox or Pocket D headbox with tile lip. Where a pocket already exists a wall clip and closure are available with or without a tile lip.
- Compatible with U, H, and L channels for light-gap reduction.
- Dual roller hardware components include: Dual Roller Endcaps, Dual Roller Fascia, and Dual Roller Pocket Headbox. Options may vary by product type. See technical documents for details.
- Product designed for interior use.

OPTIONS
- Multiple hardware options for surface mounting, including brackets (standard), fascia with endcaps, or headbox with closure.
- Hardware finish choices: clear anodized (standard), black, white, ivory, or charcoal bronze. Custom powder coat colors available.
- Dual Roller Fascia finish choices: clear anodized (standard), black, white, ivory, or charcoal bronze. Custom powder coat colors available.
- Dual Roller Pocket Headbox finish choices: gray inside/white outside or white inside/gray outside with a white wall clip.

SIZES
- Available in sizes 36-3/8” to 168” (92 cm to 427 cm) wide, depending on motor and fabric selection.

SUPPORTING DOCUMENTS
All instructions, technical drawings and other supporting documents are located at: Documents.aspx

For more information on this product visit: windowshades/motorizedshades.aspx

Motorized FlexShade 50 DC offers a square head intelligent motor or a radio frequency (RF) motor. The acoustic performance of less than 38dB provides reduced operational noise levels and comes with a 24V power wire.

The 4Nm torque allows for a single Sonesse® Ultra to multi-band up to six shades. It is available in 24V RTS and 24V 485 platform technologies, compatible with Somfy® RTS controls.

For large commercial buildings, the 24V 485 motor provides the scalability and integration capability to fit the needs and budget of a project.
