MOTORIZED FlexShade® Recharge

RECHARGEABLE LITHIUM ION BATTERY

A rechargeable, motorized window shade, the FlexShade Recharge features quiet operation and ease of installation in difficult areas with no wiring or electrician needed. Quiet and easy-to-use, the battery-powered Recharge can be retrofitted using existing Draper® clutch window shade brackets.

FEATURES
- Lower-cost entry point for motorization.
- Shades available in single or dual roller option.
- No battery wand. Batteries located inside motor.
- Green product. No disposable batteries.
- Charges from 110V outlet.
- Installs like a manual shade. No wiring or electrician needed.
- Each charge lasts over 500 cycles, several months of normal usage.
- Extremely quiet operation.
- Product designed for interior use.

OPTIONS
- Alexa or Google Home compatible using Recharge Data Hub.
- Choose single or multi-channel wireless wall switches or remotes to operate the shades.
- Recharge Data Hub and mobile app to operate or program the shades.
- Recharge Sun Sensor.
- Solar Panel for Recharge Battery Motors.
- Recharge Cable Extender 6", 48" or 96".
- Multiple hardware options for surface or recessed mounting.
- Hardware finish choices: clear anodized (standard), black, white, ivory, or charcoal bronze. Custom powder coat colors available.

SIZES
- Available in sizes up to 12' (366 cm) wide, depending on fabric selection.
