1. INTRODUCTION

The RS485 SETTING TOOL is a smart digital system which enables the setting of SOMFY RS485 products (Somfy RS485 motors and interfaces). This was designed to ease the integration and settings for OEMs & façade makers, but also to ease the installation and/or maintenance for installers thanks to fast connection and intuitive tool thanks to its display. Moreover, its firmware can be easily updated to allow to have the latest compatibility version in hands.

2. SAFETY

• This Somfy product must be installed by a professional motorisation and home automation installer, for whom these instructions are intended.
• Before installation, check that this product is compatible with the associated equipment and accessories.
• These instructions describe how to install, commission and use this product.
• Moreover, the installer must comply with current standards and legislation in the country in which the product is being installed, and inform his customers of the operating and maintenance conditions for the product.
• Any use outside the sphere of application specified by Somfy is not approved. Such use, or any failure to comply with the instructions given herein will invalidate the warranty, and Somfy refuses to accept liability.

Subject to technical modifications.
3. DESCRIPTION & BATTERY INSTALLATION

3.1. description

1: Navigation buttons
2: Control buttons
3: Backlight button
4: Battery compartment
5: On/Off
6: RJ45 socket

3.2. Battery installation

1) Remove the battery cover from the back of the RS485 SETTING TOOL.

2) Insert the batteries following the polarity indicated.

3) Replace the battery cover on the rear of the RS485 SETTING TOOL.

Please separate the storage cells and batteries from other types of waste and recycle them via your local collection facility.
4. WIRING

4.1. Connect the RS485 SETTING TOOL to the RS485 product.

Between the RS485 SETTING TOOL and the RS485 product, the cable length should not exceed 10m.

5. COMMISSIONING

5.1. Switch on the RS485 SETTING TOOL

Point to point settings only (this is not a network tool).

1) Press the on/off button to switch on the RS485 SETTING TOOL.

2) Choose the «Somfy RS485 node discovery» fonction or the «setting tool parameters» fonction by pressing the up and down buttons.

3) Press the «ok» button to enter in the chosen fonction.

Use the «Up», «Down», «Back» & «Ok» buttons to navigate in the menu.
5.2. Somfy RS485 node discovery section*

* Example of setting for a RS485 motor

** Select the preset position (1 to 16) with the ▲ ▼ buttons.
5.3. Setting tool parameters section

*** Please contact your local Somfy retailer for the informations about the Software update.
