**SP-KSM—3-Position Key Switch (Momentary)**

**USES:**
- The SP-KSM replaces the standard 3-position key switch (KS-3) where a momentary (spring-loaded) action is required. It combines the directional functions (Up and Down) with the security of a key switch. It can be used as a single- or multiple-station control.

**COMPATIBILITY***:
- SP-KSM can be used in multiples, for either high- or low-voltage systems.
- LVC-IV (low voltage module) can be triggered by SP-KSM (stop does not work).
- LVC-S (low voltage switch) can be used in conjunction with SP-KSM.
- Three wire motor with Built-in Low Voltage Controller (stop does not work).
- KS-1 Power Supply Key Switch.

**CONTACTS**:
- Momentary action.

**RATING**:
- 600 Volts, UL recognized, CSA recognized.

**DESCRIPTION**:
- 3-position key operator, momentary action.
- Cover plate is stainless steel.
- Four 6" wire leads: black, black, red and blue (2 commons, down and up).
- 2¾" x 4½" cover plate fits a single-gang box.

**PART NUMBER**:
- 121022
